

Journal of Veterinary Research

Review of manuscript no. 2723

1	Does the paper contribute new and original data?
2	Does the title of the paper reflect its contents?
3	Is the abstract sufficiently informative, especially when read alone?
4	Is the paper properly organized and clearly presented?
5	Are the methods used adequate and appropriate in view of the subject matter?
6	Are the interpretations and conclusions justified by the data?
7	Are the figures and tables clear and necessary?
8	Are the photographs of good quality?
9	Are the references adequate to the paper?
10	Suggestions increasing paper's value.
11	Other comments.
12	Evaluation of the paper in the scale from 0 to 5 points.
